## Dear Parents / Carers and Children,

We have been making the most of our new children's kitchen. The delicacies that have been produced in the past few weeks included fruity cocktails, WW2 ration cooking and pancakes. I believe that Year 4 also had a Victorian tea party this week. I am most grateful to Boras, who provided the kitchen but also to local supermarkets who provide the ingredients, often free of charge.

We will get our Queens Hall back at the end of this week when Crucial Crew have finished their two weeks of workshops and activities designed to help young people to be more aware of the potential dangers and also how to develop awareness as young citizens of Hertford. We have offered our hall for many years and are pleased to do so. I only hope that in these times of cutbacks they will continue to be funded. It is a valued tradition for our Year 6 pupils to attend and benefit from the services and workshops on offer.

I have received a letter from one of our neighbours in Queens Road who is really upset by the inconsiderate parking on grass verges which he tells me are being turned into a boggy mess. The roots of the trees are also being exposed by the constant wear and tear of tyres passing over them. I have tried to assure our neighbour that the school does remind you all about parking considerately and have suggested that he seeks advice from the local police and parking attendants.

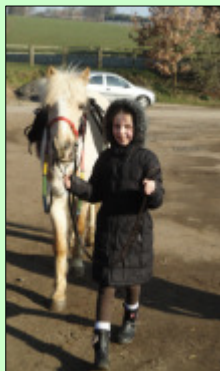

I hope that the weather holds up for the Year 5 children who are off to Aylmerton today. However, come rain or shine they always have a brilliant time and are fed very well. Heartfelt thanks to the staff team who have generously given up their week ends to accompany the group.

Kind regards

*Sue Dutt*

## Extended Opportunities

We are delighted to have been able to offer a horse-riding opportunity for two children at the Contessa Riding Stables in Colliers End. As a result... here is Olivia and a horse!

## Crucial Crew Diners...

Many of those offering activities as part of Crucial Crew have interacted and been impressed by the attitude and behaviour of our children. Here are our PCSO Donna and Sgt Tom Turner enjoying lunch and a chat with some of our younger clientele.

## Weather It Will Work???

Mr Sadler and Mr White, our two highly skilled meteorological equipment installers set to work on Thursday to scientifically and optimally position our new weather station. The display is now functioning in our Queens entrance porch, although we will leave it for the children spot the rest of it. To describe the performance of our skilled technicians as supremely efficient and precise is doing them a huge disservice! Our thanks to them.

## Reminders...

The entrance computers are available for parental use should you wish. Just ask at the office.

If you are dropping off for The Dell after 8:10 you should be parking on the road.

Dogs, unless guide dogs, are not allowed on the Morgans site at any time.

Thank you for your understanding on these matters.
