

Seasons & Weather

We are learning to:

- Identify seasonal and daily weather patterns in the United Kingdom.
- use basic geographical vocabulary to refer to: key physical features vegetation, season and weather.

Snow often falls in Winter.

Vocabulary

Season

Part of the year with similar weather.

Weather

Daily features of the world such as rain, sunshine or cloud.

Extreme weather

Strange and dangerous patterns of weather like blizzards.

Spring

A season defined by blooming flowers.

Summer

A season defined by warm conditions.

Autumn

A season defined by harvest and falling leaves.

Winter

A season defined by cold weather and snow.

Weather Forecaster

A person who predicts what the weather will be like.

Our Lessons

- To recognise features of the four seasons of the UK.
- To observe weather outside at a particular time.
- To know that different parts of the UK often experience different weather.
- To know that a weather forecast is when someone tries to predict what the weather will be like.
- To know that extreme weather such as hurricanes and Snowstorms can happen.

Symbols are often used to show the weather.

Did you know Winter in the UK is Summer at the South Pole
